

NEGRO SERGEANT SAYS TROOPS DID NOT FIRE

BUT THAT THE SHOTS CAME FROM THE TOWN OF BROWNSVILLE.

DIRECTED TOWARD HOSPITAL

Denies the Charge of Guilt in Any Conspiracy of Silence—Evidence Before Committee.

Washington, Feb. 12.—That many of the shots fired at Brownsville, Tex., on the night of Aug. 13 came from the town, was the claim of Mingo B. Sanders, former first sergeant of Company B of the Twenty-fifth infantry, in his testimony before the senate committee on military affairs. He testified that while running from his quarters to Company B barracks after being awakened by the firing the night of Aug. 13, the shooting was going on, and it came from the town and was toward the hospital on the military reservation. He said bullets were whizzing over his head. This is the first direct testimony given by any of the discharged negro soldiers that the fire came from the town. Sanders said that he served in the army 25 years, 6 months and 23 days, including the campaign in Cuba and three years in the Philippines. At Brownsville he had a house to the left of company quarters and directly in front of the hospital. He said he started on a run to B quarters, and just after leaving his house the firing was renewed. As he reached C quarters he said he saw that men assembled there were excited and shouting to each other. He testified he heard Lieutenant Green give the order to break the racks where the guns were kept. Sanders told of finding his own company in confusion and of his efforts to straighten it out. He said he found some of the men down on their knees and that others were yelling to put out the lantern so that it would not furnish a target for persons to shoot at. "I told the men to stand up and be soldiers and that it was better to be shot in the ranks than out," said Sanders. "When the men did not stand up I told them some other things I don't want to repeat here."

On cross examination Sanders said he could not tell the location of the first shot. He said he had been under fire several times and was familiar with the various makes of arms. On that night it was "mixed firing," he said. He thought it came from six-shooters, Winchesters and Mausers. He said that he had nothing to do with the shooting; did not know anyone who had; did not suspect anyone and had made diligent inquiries among the men to find out from them what, if anything, they knew, and has been unable to get any information. He declared that he had not withheld any information and that there was no conspiracy of silence. He said that he had reported the affair to Major Penrose, although it did not appear in his evidence taken by Captain Lyons. Indeed, he said he had not stated this to anyone else until this time. He had not been asked about it and did not volunteer information. "I am looking after Sanders first," said he. He thought there were about nine guns out of the company's racks on the night of the shooting, but they were all accounted for.

Bonney Got the Cat.

Guests at the Warden were nearly frightened out of their wits Monday morning at an early hour by the appearance of a "strange" animal of the cat species. Nine attempts were made to get rid of the animal and when E. E. Bonney, proprietor of the Warden cigar stand, used his greatest effort in the ninth trial, he was horrified to see the animal make a break for the cigar counter. Barricading itself behind Mr. Bonney's stock case, the vicious feline emitted a series of yells, coughs and

Even Better Than Frumenty

Old English Dish Is Now Surpassed by a Malted Grain Food.

Writing on the food problem and advocating a rational health diet, Dr. Josiah Oldfield, author of "The Claims of Common Life" and "Other Well-Known Works," declares a sufficient quantity of grain food is necessary and refers to the old English dish of frumenty as a most excellent article of food. He also speaks of malted grain as a food for increasing years. This eminent author thus strikes the very keynote of health and strength.

There is a modern food which embraces all the qualities of frumenty and has even more, for it is malted grain. We refer to Malta-Vita—all pure grain and nothing else. Malta-Vita is made by an extended and elaborated process of the old way of making frumenty. The whole wheat grain is thoroughly cleaned, then boiled in water and cooked in steam to gelatinize the starch. After the starch cells have broken down, the wheat is mixed with pure barley malt extract which converts the gelatinized starch into maltose, or malt sugar, highly nutritious and easily digested even by the weakest stomachs. Then each grain of wheat is rolled into little water flakes and goes to the great ovens where, under intense heat, it is baked crisp and brown, "done to a turn," and ready for your table. All grocers sell Malta-Vita. 10 cents.

eders that would have made any automobile take a back seat. Finally, as a last resort Mr. Bonney got hold of a salt "sprinkler" and with some well chosen language and the toe of a new shoe, succeeded in landing the animal in the clear.

"Regular as the Sun" is an expression as old as the race. No doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by F. D. Hall, Druggist. 25c.

COURT HOUSE NEWS

Answer of J. E. Lingafelter.

In the case of A. A. Stasel as receiver of the Newark Savings Bank Company, vs. James F. Lingafelter, the defendant has filed his answer. He denies that he did not truthfully and honestly perform the duties of cashier of the Newark Savings Bank Company. He denies that he did not safely keep and care for the funds of the company, which were in his care. He denies that he did not faithfully and honestly account for all things belonging to the company. He also denies that he drew from the company and converted to his own use \$50,000, or any other sum, and also that he failed to account to the company for anything whatever belonging to it. He also denies that the bank company had become or is now insolvent. He asks that petition of plaintiff be dismissed. Smythe & Smythe attorneys for Lingafelter.

Answer and Cross Petition.

In the case of Charles F. Moran vs. John Moran and others, the defendant, The Johnstown Building and Loan Association of Johnstown, has filed its answer and cross petition.

Suit in Partition.

In the case of John W. King and others vs. Joshua S. Anderson, suit in partition, in which a decree of partition was granted by the Probate court, the appraisers returned the value of the real estate which is located in New Way, this county, at \$225. The property formerly belonged to Jeremiah Phillippi, who died about 18 months ago, leaving no children. Eighty-four heirs have laid claim to shares in the estate, of whom John King claims the largest share, one-sixth, and Maud Phillippi the smallest share, one eleven hundredth and thirty-fourth.

Arrested for Slander.

On affidavit of Joseph Popa made before Justice Lee S. Lake, Joan Popa, a Roumanian, was arrested on the charge of slander. The defendant was charged with circulating stories that the plaintiff was guilty of stealing. Defendant entered a plea of guilty and was fined by the justice.

Shah Grants Demands.

Teheran Feb. 12.—The shah sent a message to parliament granting all the popular demands, including formal recognition that the country is under constitutional government. This message was telegraphed to Tabriz, where the people had seized the arsenal and closed the government offices. All is now quiet.

Two Regiments May Go.

Columbus, O., Feb. 12.—Adjutant General Critchfield will have two regiments of infantry escort Governor Harris to the Jamestown exposition if the cost of transportation can be arranged. The plans for the military display have not been definitely made, however.

Moves Against Railroads.

St. Paul, Minn., Feb. 12.—Attorney General Young began mandamus proceedings in the Ramsey county district court to compel the ten railroads doing business in Minnesota to accept the freight rate reduction recently ordered by the state railroad and ware house commission. The railroads involved are the ones which recently enjoined the state in the United States district court from putting the rates into effect.

Membership Banquet—A New Club Proposed—Financial Canvass on To Secure Deficit.

A big banquet was held in the gymnasium last night to which were invited all the successful members in the last membership campaign, as well as all the new members secured. The evening was a delightful one in every respect. The toasts and friendly banter showed a splendid spirit existing in the association. Superintendent Simpkins, as well as the other speakers, spoke very highly of the usefulness and value of the Y. M. C. A. to the young men and the city.

A very pleasant feature of the evening was the graphophone concerts played during the supper. The machine used was a Victor. Some very fine records being loaned by Mr. C. E. Wyeth for the occasion. We wish to extend our thanks to Mr. Wyeth for this courtesy.

Mr. Fred C. Evans proposed the organization of a membership club, which was heartily endorsed. The effort for new members is to be continued each month, realizing that the members themselves are the best membership hustlers. For every new member secured the association will give a cash prize of 50 cents and a free seat at the bi-monthly banquet. The agreement for admission to the club is that each member will make an attempt to secure at least one new member every month inviting some friend or prospect to the building together with furnishing a list of prospective new members to the secretary. If a member fails to secure a new member he pays 25 cents for his seat at the banquet.

The board of trustees are making a financial canvass this month to secure the deficit in the current expense budget. Owing to the low membership fee charged it is necessary to provide for about one-fourth of the current expenses by subscriptions. This is the custom in all cities and is rightly so, as the association is constantly launching out into new lines, of usefulness in helping to solve the problems of the city in connection with boys and young men. Much of the work of the association affects many boys and young men outside of its membership. Many in close touch with the work say that it contributes more widely to the moral uplift of the community than any other organization in the city.

About \$800 has already been secured. The extent of the association's influence depends to no small degree on the financial support it receives. It is gratifying to find that men who cannot give of their time, give liberally of their money in the promotion of its work.

LAWYERS TOAST THE HEALTH OF VENERABLE PRESIDENT KIBLER

Annual Banquet of Licking Co. Bar Association Held at Sherwood Apartment House Monday Night—Elegant Menu Served by Caterers.

The sixth annual banquet of the Licking County Bar Association, the event also commemorating the 80th anniversary of the birth of the venerable president of the association, Judge Charles H. Kibler, was held in the beautiful banquet hall of the Sherwood apartment house Monday night, 37 members of the association being seated around the festal board besides a number of other guests, court attaches, etc.

It goes without saying that the banquet was one of the most successful from a standpoint of thorough enjoyment and good catering of any previous event held under the auspices of the association. Law books and briefs were relegated to the background and the lawyers relaxed their strained nerves for the evening to enjoy the good fellowship which always results when a small party surrounds an elegantly prepared repast.

The dining room where the banquet was held, was prettily decorated for the occasion, festoons of southern ivy being hung about the walls and draped from the electrolights.

A long table, with places enough to accommodate the entire number of banqueters, was resplendent in snowy linen and radiant glass. Sprigs of smilax intertwined with red carnations beautified the appearance of the table, while burning candles in pretty candelabra of glass and brass set off the whole very nicely.

Marsh's orchestra which was located in the lounging room, just opposite the entrance to the banquet hall, rendered beautiful music while the elegant menu was being disposed of, course by course, until the coffee and cigars came at the end.

Menu.

"It is not the quantity of the meat, but the cheerfulness of the guests which makes the feast."—Clarendon Neapolitan Punch. Blue Points. Celery. Parrot of Almonds. White Fish Escalloped au Gratin. Olives. Roasted Turkey, Chestnut Dressing. Cranberry Jelly. Mashed Potatoes. Browned Sweet Potatoes. Perfection Salad. Nesselrode Pudding. Kentucky Pound Cake. Cheese Boniches. Toasted Wafers. Cafe Noir. La Toca Cigars.

After the cigars were lighted and the chairs pushed back, Judge Kibler called for order and made a brief address in which he referred to the fact that he was celebrating his arrival at the 80th milestone in his life's journey. In the course of his remarks, Mr. Kibler mentioned that while the county had a public prosecutor it was his opinion that the county should have a public defender as well, and that he thought this position rightfully belonged to the Messrs. Smythe. Mr. Kibler then introduced Mr. Andrew S. Mitchell, one of the new members of the bar who recently came to Newark from Washington, D. C.

Mr. Mitchell responded to the toast "The Judiciary of the District of Columbia." His talk was very interesting, inasmuch as it explained to the local barristers the workings of justice in the district of the nation's capital.

Mr. John R. Davies' toast was "Needed Reforms in Law and Lawyers." Among the things in which Mr. Davies advocated reform was the Courts of Appeal. In illustrating his meaning he told a witty story of a case in which a litter of pigs was in litigation, and by the time the case had been appealed and sent back for new trial several times, a year or more had passed and the pigs had become respectable sized hogs before the court issued an order of execution. Mr. Davies advocated the abolishment of the Circuit court.

"After Dinner Speeches" was the toast responded to by Mr. Carl Norpell. His address was witty and interesting. Before closing Mr. Norpell proposed a pretty toast, honoring Judge Kibler, "whose ability as a lawyer and integrity as a man have never been questioned."

In introducing Mr. B. G. Smythe, Judge Kibler mentioned that the speaker was about to "give us an autobiographical sketch." The hearers referred to the program to see what Mr. Smythe's subject was and much amusement was created when it was seen that he was to speak on the subject "A Big Monkey." It turned out, however, that it was not a story of Mr. Smythe's life, but a speech in which comparisons were drawn between attorneys and lawyers. The toast was cleverly handled and Mr. Smythe explained that one reminded him of the other because they were so different.

Eugene Moore, F. A. Bolton and A. A. Stasel were on the program for

SHAKE IT OFF. Rid Yourself of Unnecessary Burdens—A Newark Citizen Shows You How.

Don't bear unnecessary burdens. Burdens of a bad back are unnecessary. Get rid of them.

Doan's Kidney Pills cure bad backs; Cure lame, weak and aching backs; Cure every form of kidney ills. Lots of local endorsement to prove this.

E. S. Cramer, proprietor of a livery and boarding stable at 59 West Main street, and living at 95 Eddy street, Newark, O., says:

"I endured backache for a long time before I knew that it originated from the kidneys. I felt well in every way but my back was a continual misery to me. There was dull aching in the loins, extending around to the left side. If I remained in one position for any length of time and then attempted to move quickly, sharp, shooting pains would strike me, some times in one place and sometimes in another. I tried liniments and used several remedies with no effect. Hearing at length of Doan's Kidney Pills I got a box at Crayton's drug store. It is really remarkable how quickly I found relief. The remedy seemed to attack the cause of my trouble and in time it so eradicated every sign and symptom of it that for the 18 months since I used Doan's Kidney Pills I have had no return of my trouble."

Those who heard him on his previous visit are unanimous in their praises and a full house is predicted for him on his return visit.

CATARRH

To prove unquestionably, and beyond any doubt that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free Trial Boxes of Dr. Shoop's Catarrh Cure. Do this because I am so certain that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing antiseptic balm, put up in beautiful nickel capped glass jars at 5c. Such soothing agents as Oil of Eucalyptus, Thymol, Menthol, etc., are incorporated into a creamy, cream like Petroleum, inspired by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc., are all cured by Dr. Shoop's Restorative.

For uncomplicated catarrh of the nose and throat nothing else, however, need be used but

Not So Much Sickness.

In spite of the fact that there is
said to be a great amount of sickness
this winter, prominent physicians,
hospital managers and druggists of
the city, state that there is less sick-
ness this winter than there has been
for ten years past. These claims are
based on the sale of drugs and the
calls of physicians and hospital at-
tendants.

DR. BURNER DIED TUESDAY

Dr. H. B. Anderson of 104 South
Fourth street, this city, received a
telegram Tuesday bringing the start-
ling intelligence that his uncle, Dr.
H. R. Burner, had died at his home
in Los Angeles, Cal., on Tuesday
morning after an illness of only a
few days, caused by extreme
nervousness. Dr. Burner was form-
erly one of Newark's best known
business men, and resided in this
city for many years. Some years ago
he went to California and established
a chain of sanitariums where he
administered his radium, milk and
rest cure. No particulars were re-
ceived of his death and it is not
known what disposition will be made
of the body. Dr. Burner was aged
about 63 years.

GOOD ROADS ASSOCIATION

HELD A MEETING IN THE CON-
VENTION ROOM OF THE
COURT HOUSE.

State Highway Commissioner Sam
Houston Was Present at Tues-
day's Session.

Large attendance greeted both the
morning and afternoon sessions of
the meeting of the Licking County
Good Roads Association, which met
Tuesday in the convention room of
the court house. The forenoon ses-
sion was featured by a general and
heated discussion of the new law regu-
lating the relation of road working
to the taxpayer. Prosecuting At-
torney J. R. Fitzgibbon was to have ad-
dressed the meeting for the purpose
of showing the points of the law on
the subject, but, being unable to at-
tend, the morning session was spent
in the discussion.

According to the old law on this
point, persons who had judgments
against them and refused to work
out the \$3 tax were excused from
the work or payment. By the new
law, all persons are held for the \$3,
either to be paid in cash or to be
given in work on the country road
for which they are allowed 15 cents
an hour.

At the noon adjournment Judge

John David Jones was secured to ad-
dress the convention and point out
the legal phases of the question.

Hon. Sam Houston, state highway
commissioner, was present in the af-
ternoon and at 1:15 began his address
on the subject of the care of roads.

The speaker credited the great
proportion of value of land to its ac-
cessibility and the importance of good
roads to reaching markets with goods
and crops. He called attention to the
fact that next to the education of
children the most important factor in
rural life is the question of good
roads. He stated that for 20 years
he had been associated with the con-
struction and maintenance of roads,
and that the clay road, if cared for
properly, makes the most satisfac-
tory.

The convention planned to con-
sider a resolution regulating the
weight of loads hauled on the coun-
try highways according to the width
of vehicle tires. The resolution had
not been taken up.

The state highway commissioner
reported that up to and including De-
cember 31, 1906, 33 counties had ap-
plied for an apportionment of the ap-
propriations of \$150,000 for 1906,
and the same for 1907; 32 counties,
including Licking, filed applications
for construction.

DEATHS AND FUNERALS

Word was received in the city early
Tuesday morning of the death of Mr.
J. R. Goldsborough, who passed away
in Pittsburgh at 2:30 o'clock Tuesday
morning after an illness which dates
back nearly a year and a half. His
last serious illness, however, lasted
but a little more than three weeks.

Mr. Goldsborough has been in
failing health ever since the death of
his son, Thomas Goldsborough, who
was drowned at Buckeye Lake a year
ago last July. Mr. Goldsborough's
grief was so deep that his nervous
system was unable to rally from the
shock, and he has gradually failed in
health since that time.

The deceased is a native of Mary-
land, but has spent the greater part
of his life since maturity in Pennsylv-
ania. For years he was largely in-
terested in the independent oil pro-
duction and gas business. It was
this line of work which he gave up
when he came to Newark to take the
management of the old Newark tube
steel works. He was at the head of
this concern when it was changed to
the steel rolling business, when it
was known as the Newark Iron
and Steel company. He was manager
of the plant until it passed into the
hands of the receiver, Mr. Wm. J.
Miller. After that time he was book-
keeper of the concern until it was
abandoned and the factory disman-
tled.

In all Mr. Goldsborough resided in
Newark about five years. He after-
wards removed his family to Pitts-
burgh, where he has since resided. He
was about 60 years old and was a
prominent Mason and a member of
the Knight Templar Commandery at
Bradford, Pa. While in Newark, he
made many warm friends, being a
pleasant man and an interesting
talker.

He leaves to mourn his death, a
loving wife and six children, Messrs.
William and J. R. Goldsborough, Mrs.
Frank Bartholomew and Miss Helen
Goldsborough. The death of Thos.
Goldsborough was the first to break
in the large family circle in which
there was more than the ordinary
love for one another in their home
life.

The funeral services will be held at
the home in Pittsburgh Thursday af-
ternoon at 2:30 o'clock, and the body
will be buried in the family lot be-
side that of the son. Mr. and Mrs.
Frank P. Kennedy will go to Pitts-
burgh to attend the funeral.

ISAAC HOLDBROOK.

Mr. James Holdbrook, 186 South
Second street, received notice Mon-
day evening of the death of his father,
Isaac Holdbrook, of Xenia, a former
resident of this city. The de-
ceased was 87 years of age and as
the son in this city had not been not-
ified of his illness, it is believed that
death came suddenly as a result of
the infirmities of old age.

Mr. Holdbrook has been a resident
of Xenia for the past 15 years, but
previous to his locating there he re-
sided in this city for a number of
years, where he was engaged in the
manufacture of wagons.

There remain two sons, James, of
this city, Jacob of Gifford, O., and
two daughters, Mrs. Ida Loar, Zanes-
ville, and Mrs. Ora Rhine, Gifford,
O. The aged widow is still living.

JOS. KLECKER'S FUNERAL.
The funeral of Joseph A. Klecker,
who met a tragic death at the B. and
O. round house at midnight on Satur-
day, occurred this afternoon. The
Eagles attended the funeral in a body
and escorted the body of their late
brother to the cemetery where it was
buried.

Health Depends Upon the Bowels

Without regular action of the bow-
els perfect health is an impossi-
bility; with the bowels acting as
nature intended, waste products
and body poisons, which cause
Stomach troubles, Headache, Bil-
iousness, Colds and Rheumatism
cannot accumulate in the system.

Piles and fissure, flushed face,
headache, backache, dizziness, and
that dull heavy tired feeling, are
in nearly all cases the direct result
of constipation—the body drainage
being clogged with waste products
and poisons.

Physicians unload the bowels, and
give temporary relief, but are too
strong in effect. They irritate
and inflame the delicate lining of
the digestive and expulsive organs,
make the stools voided, loose and
watery, and leave the bowels weak
and lifeless, and less able to act
naturally than before.

Laxative Iron-ox Tablets
nourish the bowel muscles and
nerves so that they have the
strength and vigor to do the work
nature intended. They act like
nature because the ingredients
are of the same essential elements,
as the natural secretions of those
organs concerned in purifying the
blood, in assimilation of the food,
and in expelling the waste prod-
ucts and body poisons from the
system.

Save Shoe Leather

Also save time, for time is valuable.

The foolish man or woman starts out to hunt a room or a position.

How many miles will you travel in such a quest? How much car fare will you spend? How much shoe leather will you wear out? And after all, how many people can you see?

Not many. If in your travels looking for employment you happen to find a man needing help, you are so fagged out you can't talk to him with any show or enthusiasm. He concludes you are slow or dull and decides he does not want you.

A little want ad., that costs you 25 cents, will see thousands of people and talk to them eloquently, while you might wait in the ante-room to be told "he is too busy to see you." Someone will be struck by your offer and your fortune may be made.

If you have been one of the foolish ones, stop it.

Let THE ADVOCATE want ads. help you. 18 words three days for 25 cents.

Notice of Sale of School Bonds.

Sealed proposals will be received by
the Clerk of the Board of Education
of the School District of the City of
Newark, Ohio, at the office of the
Clerk of said Board over Franklin
National Bank in said city, until

MONDAY, THE 15th DAY OF
MARCH, 1907,

at 12 o'clock m., for the purchase of
seventy non-taxable bonds of said
Board of Education, bearing date the
day of sale, numbered consecutively
from one to seventy inclusive, and
bearing four per cent interest per an-
num, payable semi-annually. Said
bonds are of the following denomina-
tions and become due and payable as
follows, to-wit:

Bonds numbers 1 to 10 inclusive
shall be of the denomination of five
hundred dollars each, of which num-
bers 1 to 1 inclusive shall become due
in three years from the date thereof;
and numbers 5 to 10 inclusive, in four
years from the date thereof.

Numbers 11 to 60, inclusive, shall
be of the denomination of one thou-
sand dollars each, of which numbers
11, 12 and 13 shall become due in five
years from the date thereof; and
thereafter three of said thousand dol-
lar bonds shall become due each suc-
cessive year in the order of their con-
secutive numbers.

Said bonds are issued for the pur-
pose of building an addition to the
high school in said school district, in
pursuance of Section 2591 and 2592 of
the Revised Statutes of the State of
Ohio, as passed and amended April
25, 1891, and in pursuance of a resolu-
tion of said Board of Education,
passed at a regular meeting of said
Board November 19 1906, authorizing
the issue of said bonds.

Said bonds will be sold to the high-
est bidder or bidders for not less than
their par value. Bidders are required
to state the number of bonds bid for,
and the gross amount they will pay
for the bonds bid for, with accrued in-
terest to date of transfer. A right to
reject any and all bids is reserved by
the Board of Education. Proposals
must be sealed and endorsed "Bids
for School Bonds" and accompanied
by a certified check for four hundred
dollars as a guarantee of good faith.
Said check will be returned if bid is
rejected. D. M. KELLER

The Memory of Lincoln.

(Pittsburg Post.)

It is a magnificent tribute to the real greatness of Abraham Lincoln that each recurring anniversary of his natal day is signalized by a more general observance and that those who participate in the memorial ceremonies are men of all sections, parties, creeds and nationalities. Although it was his fate to be the head of a portion of the people who were engaged in desperate and long-continued warfare with another body, yet today those who were his enemies in life are vying with those who supported him in time of strife in paying the highest honors to his memory. It was not to be expected that calm and correct judgments could be formed by the vast body of citizens at a time when civil war raged. Naturally the men who were in arms against the Government of which Lincoln was the head were not in a position to do justice to him. But even before his tragic death many of his opponents had come to have some perception of his real greatness of soul and of his unassailable integrity and pure patriotism.

Simultaneously with the news of his death came the beginning of that general awakening to his real merits on the part of friends as well as foes, which so vastly altered the public estimation of his character and work. Even many of his strongest supporters did not fully appreciate his worth while he was still their leader. Some of them frequently had moments of weakness and doubt concerning the correctness of his attitude, and on more than one occasion opposed his views. It is not strange therefore that those who were by force of circumstances placed in an antagonistic position should have greatly misunderstood him and been moved to severe and undeserved denunciation of him. But the years which have elapsed since his earthly labors ceased have removed the scales from the eyes of both friend and foe, and alike they are vying in the effort to pay to him that meed of praise that is so richly his due.

It is not only the great achievements of Abraham Lincoln, but also the simplicity of his character, which renders him so dear to the heart of the average American. He was a plain man of the people. Like the Savior of mankind, he was a man of sorrows and acquainted with grief. His heart was open as the day to melting charity. It was never steaked against the sorrows of his fellow-men, but always keenly sympathetic with them. He had known poverty and hard work. Although he mingled in his late years

with the great men of the Nation, yet he never lost his native simplicity. He was the typical American of his day, as Franklin was of his, but he surpassed the latter in his trials and in his achievements.

AN EARTHQUAKE DOES DAMAGE AT KINGSTON

Kingston, Jamaica, Feb. 12—The heaviest earthquake shock since the destruction of the city, January 14, came last night and many of the shattered structures toppled over. People were aroused from sleep and ran into the streets and parks where they remained much of the night. It is said that at least ten blacks who had tempted fate by moving into wrecked buildings were buried and are dead. The tower of the parish church, one of the oldest in the island, was left greatly out of plumb by the great shock, and last night much of the superstructure well into the street. Headquarters house, where Governor Swettenham conducts his affairs, was badly damaged. Great cracks were left in the walls by the first quake, and it was considered dangerous. Now that the walls have slipped again and many bricks have fallen, no one will enter the place. The government papers will be rescued, and it is probable that the governor will establish new headquarters today.

Suffering from Piles Unnecessary

Pyramid Drug Co. Have Found a Perfect, Quick and Painless Remedy.

YOU CAN TRY IT FREE.

We offer you a trial package of the Pyramid Pile Cure absolutely without cost. There is enough in the sample to give great relief. Do not hesitate, fearing that it will harm you. Not only does the Pyramid Pile Cure cure piles painlessly, but without inconvenience or the interruption of your business duties. It acts as a healing balm to the irritated membrane of the rectum, giving new life to the deadened blood vessels and causing the ulcerous condition to pass away. Immediately upon starting to use the Pyramid Pile Cure the patient will find the congestion relieved and the swelling diminishing as well as the disappearance of that awful sense of itching.

Read the record of this wonderful cure:

"I bought 5 boxes of Pyramid Pile Cure just before leaving the U. S. for the P. I. last May. I had as bad a case of piles as there could be. I suffered from piles since the early spring of 1900. I contracted the piles from a mild case of dyspepsia in Luzon, P. I., and carried them all around the island, China, Japan, and back home for four years. I used all kinds of pile cures known but I could never get a cure or even a few hours' relief. Till in March, 1905, a friend gave me the Pyramid Pile Cure and it gave me instant relief. I used five boxes all told and not a visible sign of Piles have I now. I don't know how to begin to thank you. I remain, your faithful believer in Pyramid Pile Cure. T. T. Haffner, Co. I, 9th Inf., Manila, P. I."

There is no method so safe or so inexpensive. If you are a sufferer from this disagreeable, distracting, painful and dangerous affliction, write us for a free trial package which we will send to you at once. We are sure that you will be so greatly helped that you will continue to use this treatment until cured. Pyramid Drug Co., 79 Pyramid Bldg., Marshall Mich.

AT MT. VERNON

Coffman is Wanted and He Was Arrested in Newark Monday Afternoon.

People who are wanted by the local officers for various offenses, seem to flock around the patrol station like the proverbial flies around the molasses barrel. Monday afternoon Chief Sheridan arrested Reuben Coffman for Mt. Vernon officers where he is wanted for pointing fire arms. It is alleged that Coffman got into an altercation with a man in Clark's restaurant or saloon and in the difficulty it is alleged that he drew a revolver and threatened to do a little fancy target shooting for the benefit of those interested.

The message was received Monday afternoon and a few moments later, Coffman came strolling by the patrol station. He was placed under arrest and taken to the city prison. Lieut. of Police Wm. Hough of Mt. Vernon, came after the prisoner last night.

It is understood that Coffman's tools have been attached at Mt. Vernon to satisfy a claim for a board bill. He is a plumber.

WILL RECRUIT LOCAL COMPANY

UP TO 75 MEMBERS IS NOW THE INTENTION OF COMPANY G OFFICERS.

Club Room Fitted Up at East Main Street Armory—Preparing for Target Shoot.

On Wednesday Captain Geo. Henry, formerly of Company G, here, now located at Port Clinton, O. as superintendent of the State Rifle Range at that point, will become eligible for re-enlistment. In case Captain Henry is retired his successor will be elected from the company and it is rather difficult to tell who he will be.

First Lieutenant Parker Myers, of the local company, was recently granted a leave of absence for three months. Lieutenant Myers, who is a jeweler, accepted a position in Hamilton, O. In case he decides to remain there, Lieutenant Harry Smart, now in command of Company G, will retain his present post, and Myers will probably apply for discharge. If Lieutenant Myers returns he will, in all probability, resume command of the company as successor to Captain Henry.

The boys of the local company have decided that they must have a place to congregate on Sundays and talk over their troubles since the "lid" has come to stay, so they have fitted up the East Main street quarters with some nice furniture and have a very cozy club room which was occupied as such last Sunday for the first time, and a large number of the boys took advantage of the club.

The war department recently issued orders making the minimum membership of the company 62. Company G only has a membership of 55, so it was decided to increase to 75 members, and as an encouragement, the officers of the company

have offered substantial rewards for good men who can pass the enlistment examination.

The "trusties" are being put to pretty good use now in preparation for the coming competitive indoor target shoot which is to be held between the various companies of the regiment beginning at Newark March 3. The following schedule has been arranged, at which representatives of each company will strive for the honors:

First battalion, series 1—G v L, at Newark, week beginning March 3; H v M at Columbus, week beginning March 3.

Second battalion, series 1—A v B at Columbus, week beginning March 3; C v I at Columbus, week beginning March 3.

Third battalion, series 1—D v E at Delaware, week beginning March 3; F v K at Columbus, week beginning March 3.

Series 2—Two winners, First battalion at Columbus, March 15; two winners, Second battalion, at Columbus, March 15; two winners, Third battalion, at Columbus, March 15.

Series 3—First battalion v. Second battalion, at Columbus, March 16. Winner v. Third battalion, at Columbus, March 16. Losers v. Losers (for second place) at Columbus, March 16.

Lots may be drawn by opponents in this competition if the different team captains agree to do so.

HOME FOR AGED IN GRANVILLE

WHICH IS SUPPORTED BY THE METHODISTS IS AN IDEAL INSTITUTION.

There Are Now Twenty-eight Inmates Who Are Contented, Cheerful and Happy.

Granville, Feb. 12—A representative of the Advocate called at the Home for the Aged on Monday and made the acquaintance of a number of members of the family. He found everything about the institution, which is supported by the Methodists of Ohio, in first class condition. Everything about the place was as neat as a pin, while the health of the inmates has been exceptionally good. At present there are twenty-eight inmates of the home, and all are apparently happy and well satisfied with their surroundings. The old people, for the most part, meet the feebleness, limitations and inactivity of old age courageously, and triumphing over its weakness, are cheerful, contented, peaceful and happy. The regular religious services are exceptionally spiritual, impressive and inspiring.

NOTES.

It is quite probable that the temporary quarters will remain in Granville for the next eight or ten months, when it is thought the inmates will get into the new building on College Hill, Cincinnati. The main building and the north wing are under roof and are being plastered. When finished these will accommodate 192 persons.

Miss Myra Sheppard, superintendent, is taking a much needed rest, and is spending her vacation in Ashville, N. C.

Miss Ella Wright, who was the efficient clerk at the home for two years, and who has been at Colorado Springs for the past year, writes the cheering news that her health is improving. Mrs. E. Hanger of Newark, whose work has been in the west for the past six years, has been performing the duties of clerk during Miss Wright's absence with marked fidelity and zeal. Mrs. Hanger has many friends in Newark.

Misses D. D. Daly and W. G. Lewis, inmates of the Home, have gone to College Hill to enter the new Home for the Aged, located at that place, and will be there to welcome the rest of the family when they arrive some time next fall.

Rev. James N. Manning and wife have been visiting Mrs. Manning's sister, Mrs. C. L. Rader.

Miss Jennie Sheppard, who has charge of the dining room, has been on the sick list for the past two weeks. The health of the inmates of the Home has been exceedingly good during the winter.

At present there are twenty-eight inmates of the Home.

One of the most enjoyable social events of the week was the banquet given by Mrs. Jane Buckland at her home on West Broadway Monday night to the members of the Denison basket ball team. Mrs. Buckland promised the boys that if they won the game last Saturday night with the team of Ohio State she would give them a nice supper. Denison won and Mrs. Buckland made good her promise.

Another largely attended meeting of Altamaha lodge No. 296 Knight of Pythias, was held on Monday evening, on which occasion the Esquire rank was conferred on five candidates. CONSUMPTION CURED

Mrs. Henke, known as the handsomest woman in Milwaukee, states that after physicians had failed to give her any permanent relief from that dread disease consumption, she tried Duffy's Pure Malt Whiskey and has been entirely cured.

Mrs. Henke thankfully writes: "For six years I have been ailing with lung trouble, which kept growing worse until my case became serious. I employed four different local physicians, giving each a fair trial, but with very little success. During this period I was troubled with dizziness, cold sweats, cold hands and cold feet, coughing, chills and hemorrhages, which clearly indicated consumption. My physicians suggested that I move to a different climate. I tried several widely advertised medicines, but with no good results, then I tried Duffy's Pure Malt Whiskey. After using one bottle my condition began to improve. I continued to use this remedy for two years and am now in excellent condition. I used to be so weak that I could hardly stand up. I am now able to do all my household work, including washing. This letter is given of my own free will and that it may, if desirable, be used publicly that other sufferers may learn of my wonderful cure. I am a lifelong resident of Milwaukee, and the mother of five children.—MRS. ANNA HENKE, Milwaukee, Wis., April 12, '06.

Duffy's Pure Malt Whiskey

If you wish to keep strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions, and take no other medicine. It is dangerous to fill your system with drugs; they poison the body and depress the heart while Duffy's Pure Malt Whiskey tones and strengthens the heart action and purifies the entire system. It is the only whiskey recognized as a medicine, and contains no fusel oil. This is a guarantee. Duffy's Pure Malt Whiskey has stood severe tests for fifty years and has always been found absolutely pure and to contain great medicinal properties.

CAUTION.—When you ask your druggist or grocer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the one absolutely pure medicinal whiskey and is sold only in sealed bottles; never in bulk. Look for the trade-mark, the "Old Chemist," on the label and make sure the seal over the cork is unbroken. Price \$1.00. Medical booklet and doctor's advice free. Denison Honored.

Granville, O., Feb. 12—The great exposition at Jamestown, Va., next summer, is to have an educational exhibit, but this is to be strictly limited. It will not be at the disposal of any institution which has sufficient means to desire to make a large advertising display, for no merely advertising features will be admitted, but those in charge of the exhibits have sought out such notable institutions as have given distinction to the institutions or to members of their faculty and such as constitute some fresh addition to the sum of human knowledge. It is therefore a high distinction that has been conferred upon Denison university in the request that its brilliant young professor of physics, Clark Wells Chamberlain, prepare for the Jamestown Exposition an exhibit of his recent invention, the compound and torsion interferometers, and the wonderful new ruling machine, which is in process of construction. These instruments have already attracted the attention of the scientific world, and the first two of them have been exhibited before the American Physical Society and the director of the Carnegie Institute at Washington.

SOFTNESS OF SEALSKIN.

Is Rivalled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Sealing the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 2c. in stamps to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00. City Drug Store, Special Agent.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 & 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by F. D. Hall, Druggist. 50c.

REV. A. S. CARMAN OF DENISON TALKS OF DR. W. H. BUTTRICK

The Man Who Will Direct the Distribution of J. D. Rockefeller's Princely Gift to Education--Hope Expressed That Denison Will Share Handsomely.

Granville, O., Feb. 12.—Much interest is felt, naturally, in the personality of the man who is to direct the distribution of the greatest sum of money ever given to education. The general secretary of the Education Board, to which Mr. Rockefeller has just given \$32,000,000, in addition to his previous gift of \$11,000,000, is Dr. Wallace H. Buttrick.

The Education Board has been in existence only three or four years, and has attracted little attention from the public at large up to this time, but it has been understood by those in position to know that the Board was intended to be the chief agency for the distribution of Mr. Rockefeller's gifts, and that these gifts were to be upon a larger scale than anything yet known in the history of education. It was with this understanding only that Dr. Buttrick, one of the leading younger members of the Baptist denomination, gave up his important position of one of the wealthiest churches in Albany, N. Y., to assume the position of executive officer of this society. The society, in a quiet way, has already accomplished a vast amount of good, though principally in the south, up to this time.

A representative of this paper on Tuesday talked with Rev. A. S. Carman, educational secretary of Denison University, Granville, who was a fellow student of Dr. Buttrick at Rochester, N. Y., on some interesting phases of his life and character. Rev. Mr. Carman said:

"Wallace Buttrick knows the value of an education from his own personal experience. He began life for himself on the railroad as express agent of one of the New York roads, but determining to make more of himself, he began the study of Latin and Greek in his express car in a few leisure moments of his trip. Thus in a flying car he prepared to enter Oswego Normal school, one of the admirable institutions of New York state, and took its thorough course. Whether he ever taught school or not I do not remember, but the year 1880 found him in Rochester Theological Seminary as a student for the ministry. There I, as a student in the University of Rochester, and afterwards in the Seminary, became acquainted with him. He was a little man in stature, with a rosy face and an alert, but pleasant eye, who was a universal favorite among his fellow students, but doubtless from his lack of the regular college course in preparation, he evinced a modesty of bearing that showed small apparent expectation of his important career since his graduation. I remember him best as leader of music in the seminary chapel exercises, for he had a fine voice and was chosen to this position, to which a small salary was attached. I remember particularly one other occasion when Buttrick, in the Seminary devotional service gave expression to a personal matter of Christian experience with a directness and manliness that appealed to me more than anything else I remember as a student during my seminary course. Immediately following his graduation he took the place of

prominence which he has ever since filled, for he was called immediately from the seminary to the pastorate of the First Baptist church of New Haven, Conn., under the shadow of Yale college, a pastorate which one of his predecessors, the celebrated Dr. T. H. Pattison, had not long before left to accept the chair in Rochester seminary. One other personal reminiscence is that of Buttrick's first return to the seminary after his assumption of this important pastorate. Though, with an added dignity of bearing, there was the same frank fellowship with the younger students of us. He told me with unaffected amusement, of how, during his seminary course, one of the small village churches in New York state, had, after hearing him, promptly declined to consider him for the pastorate. 'No,' said he, 'they wouldn't hear me. They took B——,' naming a student who was the amusement of the whole seminary for his crudity and bombastic efforts at eloquence. Dr. Buttrick went, after a successful pastorate at Yale, to the important Emmanuel church at Albany, and has been one of the most prominent leaders in the great enterprises of the Baptist denomination. His clear mind, decision of purpose and ability to get along with men, which he learned, doubtless in his early railroad experience, have made him a great success in this broader field of work, which he has now entered upon. He will have chief responsibility in the administration of this great fund, which, even if no more were added to it, already will yield an annual income of two and a half million dollars. He has associated with him on the board, John D. Rockefeller Jr., and Mr. Fred T. Gates. Mr. Gates, though not well known to the public, is, in many respects, one of the most important men in America. He is not only the business representative of John D. Rockefeller in many of his great enterprises, but he is associated with Mr. Rockefeller chiefly as the adviser of the multi-millionaire in the distribution of his benevolences. Mr. Gates, also, was a Baptist preacher and a student at Rochester, a little before Mr. Buttrick and I came to the seminary, but he was one of the few students whose name I heard frequently in Rochester after he had left. He became pastor of a church in Minneapolis and was called from this position to be secretary of the American Baptist Education Society, which founded the University of Chicago. I first became acquainted with Mr. Gates during my pastorate in Ann Arbor, Mich., when he was planning for the infant institution at Chicago. At this time Mr. Rockefeller did not sustain his present relation to the University of Chicago, nor had Dr. Harper taken its presidency. The institution began in a modest way as a law school, with the offer of a gift of the American Baptist Education Society, of \$600,000, by Mr. Rockefeller, given on condition that \$400,000 more be raised by the society for the completion of the fund of \$1,000,000 which was considered a large sum for the founding of a college at Chicago. I was present at the Bay-

BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but it is gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. ist anniversaries in Chicago in May, 1889, when, amid great enthusiasm and subscriptions from all parts of the country, the \$1,000,000 fund was completed. The sagacity and business ability shown by Mr. Gates in this enterprise drew the attention of Mr. Rockefeller to him, and led to his engagement by the great millionaire as his representative in the wise distribution of his benevolence. The bitterest enemy of the great Oil King is compelled to admit that the gifts of Mr. Rockefeller have been made with rare wisdom, as well as princely generosity. The utmost care has been taken in the investigation of all applications for aid, and the gifts have been uniformly made on the basis of merit, and not on the basis of ostentation. That this has been possible has been very largely due to the service and sagacity of Mr. Gates, who has acted as adviser in the distribution of nearly \$100,000,000, if we add to Mr. Rockefeller's gifts those which were secured from other givers by his conditional offers. It is not strange that Mr. Rockefeller has found use for the wisdom and business ability of the young Baptist minister; also in some of his great financial undertakings, especially in those outside of the Standard Oil business. For example, he was sent as the direct representa-

tive of Mr. Rockefeller a few years ago to the Lake Superior region upon some business connected with the great copper industries of that region in which Mr. Rockefeller has large interests. While in West Superior in the intervals of business he sought out the young Baptist pastor, Rev. D. B. Cheney, brother of Dr. J. L. Cheney, well known as a trustee of Denison University. The business men of West Superior, who know of Mr. Gates only as the representative of the richest man in the world, in some great financial deal then pending, were vastly surprised to see him walking about in a warm arm in the modest Baptist pastor of the place.

"It is known to some in Granville that the recent large gifts of Mr. Rockefeller to Denison, especially the last \$150,000, given two years ago, was due principally to the interest of Mr. Gates and John D. Rockefeller Jr., in Granville. It is confidently hoped that still further gifts from this fund may come Denison's way in spite of the announced policy of the Education Board to make their giving in the immediate future largely in the direction of securing adequate advantages in higher education for the larger cities which it is considered have been neglected in the

foundings of college institutions heretofore."

DETAILS ABOUT COMPLETED FOR LINDSEY LECTURE

The details for the lecture by Judge Ben Lindsey which will be delivered at the Auditorium Friday night of this week at 8 o'clock, are rapidly being disclosed by Mrs. Mary A. Swan, who has full and complete charge of all the arrangements. Mrs. Swan has planned to open the meeting at 8 o'clock sharp and Mayor McCreery will make the introductory address. All arrangements have been made for the entertainment of the judge, and the letters received from those who have given promise to the lecture, are all things to go by, the crowd will be a mammoth one.

Lots of credit is due Mrs. Swan for the time and attention she has given this event. Whatever degree of success the lecture will be due entirely to her efforts, and she is being commended on all sides for her tireless efforts in planning the big event.

The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

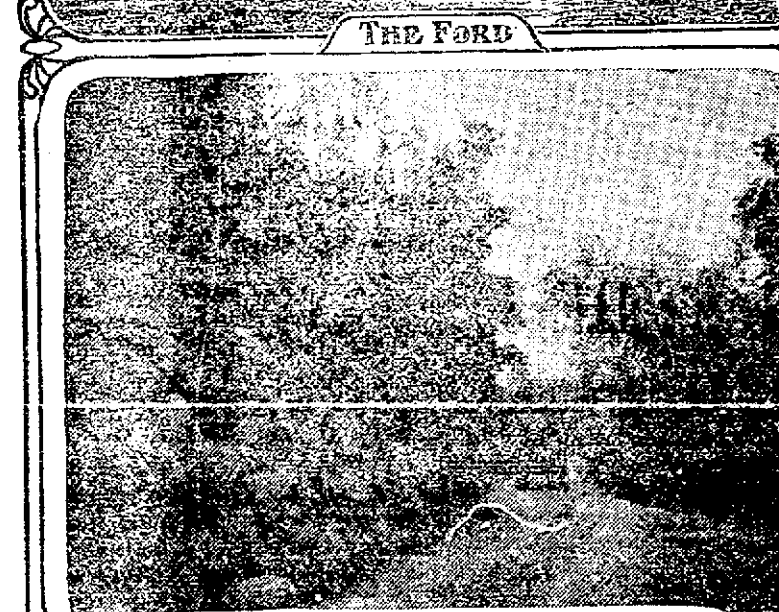

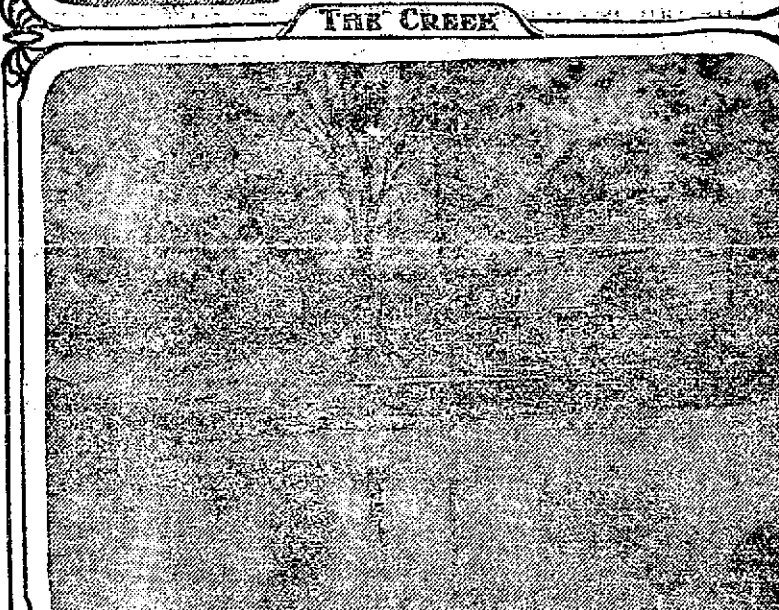

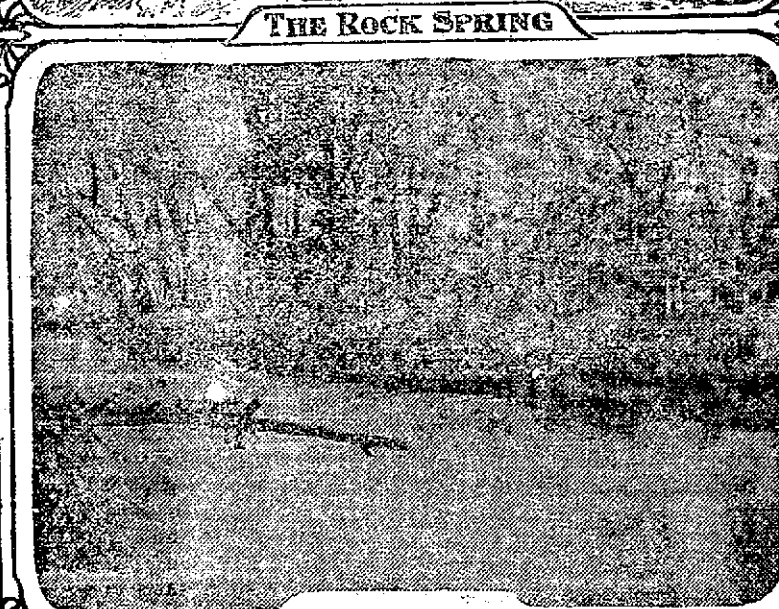

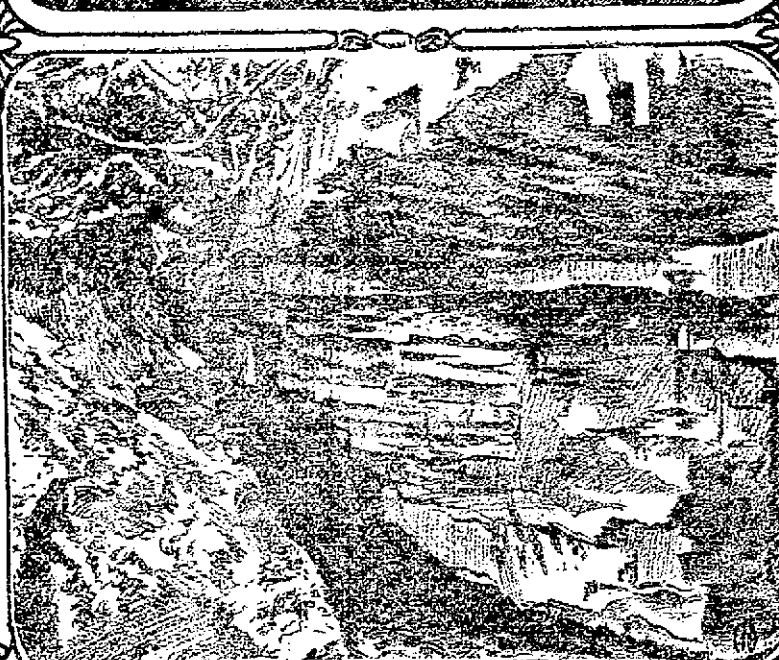

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

Skin Diseases and the General Health

Statistics Gathered by Specialists Show there is No Connection Between the Two.

How little skin diseases proper are connected with a patient's general health is shown by statistics gathered recently by a number of specialists in skin disease. One of these—

Dr. Decatur D. Dennis—has made a careful investigation covering four years and has compiled 480 cases of eczema and psoriasis. In only 23 of these, less than 5 per cent were the patients afflicted with any other ailment. The other 95 per cent were perfectly healthy, no fever, no heated blood, nothing but the itching eruption. This merely bore out the recent conclusion of specialists that skin disease is purely an external disease, to be treated externally, and not by crowding the stomach with nauseous and useless drugs.

The experiments of Dr. Dennis were further strengthened by a microscopic examination of the blood of the eczema sufferers. In the 457 cases of normal persons no impurities were found.

It is considered remarkable that while conservative German physicians and scientists conceded the recent discoveries a great many doctors in this country adhered to old-fashioned notions.

"Cure the skin through the skin" is now the acknowledged motto of the best skin specialists.

"But how?" has been the question. Most doctors say that while using D. D. D. Prescription to CURE the skin, it is best to wash with D. D. D. soap, hence we every druggist, practically every druggist, who handles D. D. D. Prescription also keeps D. D. D. soap.

We vouch for the remarkable merits of D. D. D. Prescription, and surely would not recommend it so highly for all forms of skin disease—from eczema to barber's itch—if we were not CONVINCED that it will do the work. A pamphlet on skin diseases will be given away at our store to those desiring further information.

A few drops STOP that itchy AT ONCE; continued use cures any form of eczema, psoriasis, salt rheum, dandruff, ringworm.

HUGE BATTLE SHIPS BEING BUILT BY FOREIGN COUNTRIES

Where Will be the Limit According to This Comparison of Immense Dimensions?

Washington, Feb. 12—A remarkable comparative statement of naval strength in regard to new battleships was submitted to the Senate yesterday by Senator Hale.

The comparison shows that the biggest ships being built or projected are four of 21,000 tons each by Russia. Next comes Japan with one of 19,000 tons and one of 19,200. Germany has provided for four 18,000 ton battleships and France for six of 18,350 tons each and 19 knots speed. Great Britain's Dreadnaught, of 17,900 tons, is smaller than vessels building or projected by Russia, Japan, Germany and France. Great Britain will build three more of 18,400 tons, however to make 21 knots or more.

The South Carolina of the latest type designed for the United States navy, having 18 1-2 knots speed, is small and slow in comparison.

This statement from Senator Hale is believed to point to the authorization of an additional big battleship, aside from the one authorized last year.

I KNOW A NICHE

By Byron Williams.

I know a niche where the blown lake laps
Upon a rock-strewn shore,
Where the killdeer pipes on his mournful
lute
And the woods are rich in lore!

I know a bay near the fragrant wood,
Along the water's rim,
Where the jack-snipes skip on the shelving
sand
And the jocund curlews skim!

I know a place where the red bird calls
To her warbling courtier gay;
Where the blue-jay shrieks and the
thrush throat throbs
With a matin roundelay!

I know where days, replete with joys,
Are sweet as a babe's caress;
Where the heart buoys free on elated
bliss
And it sings in gladness!

I know where cures of yesteryear
Drift like debris away,
While the soul of man, awakening, lives
In the joy of just to-day!

I dream a scene in the office heat,
Behind a dingy desk,
Of the clover red and the forage bee
And the landscapes picturesque!

I see the shore of the chortling lake,
Within the Vale of Rest,
Where a man may lie and build for aye
Aircastles of the blest!

I know a place where the blown lake laps
Upon a rock-strewn shore,
Where the killdeer pipes on his mournful
lute
And the woods are rich in lore!

I know a place where the sunrise lights
Are yellow shafts of gold,
Where the sunset tints are of heaven's
blend
From a godly artist's mold!

PATROL WAGON

Will Respond to Alarms of Fire from Box 57, and Attend All Factory Fires.

The Board of Public Safety has issued instructions to the chief of police, directing that the patrol wagon respond to certain fire alarms. The wagon will always respond to alarms from box 57, which is the public square. All alarms from factories will also call out the wagon. A good supply of ropes will be carried by the wagon and these will be used when necessary to keep the crowd away from the scene of the fire so the firemen will not be handicapped in their work.

The wagon responded to its first alarm Monday when box 57 was sounded soon after the department went to East Newark in response to the alarm from box 2.

Chief Sheridan administered a gentle reprimand to a member of the police department at the fire excitement on Third street, near the canal, Monday afternoon, for not taking hold and helping the firemen while they were laying the hose.

The alarm from the square so quickly followed the alarm from East Newark that the ladder wagon had not yet returned to the Central station. Consequently the department was handicapped by being short several men.

The police patrol wagon containing several officers responded to the alarm, and Chief Sheridan quickly took a hand to help the firemen get the hose off the reel. An officer stood close by with his hands in his pockets, looking on as though he might be a stranger in the city.

The chief turned and sharply reprimanded the officer, asking him if he was afraid of getting his hands dirty. When the wagon returned to the station, he instructed the officer that it was his duty to serve the city at all times, whether it was doing police duty or helping the members of the fire department.

FIRST SIGNS ARE IN THE BACK

IT IS BEST NOT TO NEGLECT NATURE'S DANGER SIGNALS.

Too Much Kidney Trouble Here Valuable Prescription Given Which Anyone Can Prepare at Small Cost.

Take care of backache. A great many cases of kidney complaint are reported here, also, bladder trouble and rheumatism.

An authority once stated that pain in the back, loins or region of the kidneys is the danger signal nature hangs out to notify the sufferer that there is something wrong with the kidneys, which should receive immediate attention. Only vegetable treatment should be administered and absolutely no strongly alcoholic patent medicines, which are harmful to the kidneys and bladder.

The following prescription, while simple, harmless and inexpensive, is known and recognized as a sovereign remedy for kidney complaint. The ingredients can be obtained at any good prescription pharmacy and anyone can mix them: Compound Kargon, one ounce; Fluid Extract Dandelion one-half ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.

This preparation is said to restore the natural function of the kidneys, so they will sift and strain the poisonous waste matter, uric acid, etc., from the blood purifying it and relieving rheumatism. Backache will be relieved, the urine will be neutralized and cleared and no longer a cause of irritation, thereby overcoming such symptoms as weak bladder, painful, frequent and other urinary difficulties.

AMUSEMENTS

GIRL OF THE GOLDEN WEST. David Belasco's great play, "The Girl of the Golden West," is announced for an early presentation at the Auditorium, Tuesday, February 19. This is the play that only recently closed a two years' engagement at the Belasco theater, New York.

RAILROAD JACK. The life of the manager of a local theater is not always a bed of roses. Thomas Addison said: "If we try to please the whole world we are sure the false promises of the traveling world, and then we must be satisfied to please half of that." The manager must please all his patrons else he suffers both in reputation and profit. It is reasonable that he cannot always succeed, he has to contend with local desires and tastes, the false promises of the traveling manager and various other unavoidable conditions. He cannot always see the play before he gets it, and exigencies compel him often to buy a "pig in the poke," and often what is a big success in one town is a dismal failure in the next.

The coming attraction, "Railroad Jack," is heralded as one of the few plays that reaches the heart, is understood and liked, brings smiles, laughter and tears to all.

A strong company is to present this play, splendid scenery and unique specialties are introduced. "Railroad Jack" will be seen at the Auditorium Wednesday night.

AT THE GREAT SOUTHERN. The Great Southern theater, Columbus, will offer on Monday, February 18, a rising young comedienne, Kathryn Osterman. This merry-maker enacts a lively farce, entitled "The Girl Who Looks Like Me." This production is said to be unique in that the fun revolves about the incidents and characters connected with three women. It is said to provide a good measure of entertainment and to reveal to the public a very promising player in Miss Osterman.

STEAMER COLLIDES

(Continued from Page 1.)

The crew. A report from Providence says the steamer carried 150 passengers. No news of any others has been received and it is almost certain that they were lost. The steamer sank within fifteen minutes of the collision. The crew of the schooner were landed at the Quonochontaug life saving station. The collision occurred some distance off shore and the schooner is sunk off there in twenty feet of water.

No names or further details have been received here.

NO DEFINITE INFORMATION. New York, Feb. 12.—Officers here of the Joy Line are endeavoring to

get definite information concerning the Larchmont's loss by long distance telephone from Block Island. They admit that, if the Larchmont has been in collision, it probably went down. Some of the telephone messages from Block Island have it that only one boat load of sailors and passengers got ashore from the Larchmont, the other being swamped. The Larchmont left Providence at 7 o'clock last evening and was to have touched at Block Island three hours later.

NO PASSENGER LIST FOUND. New York, Feb. 12.—The steamer Larchmont sailed from Providence last night for New York. The tickets were sold on board the steamer and no list of passengers is available here. It is not known how many passengers embarked, but the officials on the pier estimate that the number was not less than 150.

The Larchmont was a vessel of 1500 tons and 250 feet over all. She was a side wheeler.

So far as is known, the weather last night was perfectly clear and no reason is known for the collision.

PASSENGERS WERE DROWNED OR FROZEN. Newport, R. I., Feb. 12.—The steamer Larchmont, of the Joy Line, Sunk off Block Island early today after a collision with the schooner Harry Knowlton. Most of the passengers were drowned or frozen to death. Fifteen bodies have been washed ashore. The Knowlton was bound from South Amboy with coal for Boston. It is beached near Quonochontaug beach. Captain McVeagh, of the Larchmont, was saved and has the only list of the 150 passengers, as yet unobtainable. The crew numbered 30.

ELECTIONS HELD IN TRANSVAAL

From Latest Returns Indicate a Victory for Boers—Russian Elections.

Johannesburg, Feb. 12. — The first election to parliament under the new Transvaal constitution will be held Feb. 20, with every prospect of the Boers obtaining a useful working majority in the house of representatives. The nominations for 69 seats occurred Feb. 9, and Monday 10 Hetvok (Dutch party) candidates were declared unopposed. The campaign has been a straight fight between the Progressives (British party) and the Hetvok. The latter secured the support of a number of British laborers, mine workers, who are opposed to Chinese labor.

Case of Caled Powers. Lexington, Ky., Feb. 12.—The case of Caleb Powers, charged with complicity in the assassination of Senator William Goebel in 1900, was called in the Scott circuit court at Georgetown. The question of whether Judge R. L. Stout could legally try the case was argued and taken under advisement by Judge Stout. The defense wants Stout to try the case, but the prosecution objects on the ground that Special Judge Robbins must try the case, as he tried it before, claiming the law forces the same judge to try cases until completed, no matter how many times continued.

Roosevelt's Suggestion. Washington, Feb. 12.—President Roosevelt sent a special message to congress urging the enactment of a bill, the draft of which is included in the message, which grants white persons who have intermarried with members of the Cherokee nation of Indians 60 days in which to dispose of improvements they have placed on land in the Cherokee nation which they have heretofore occupied. The sale of such improvements is to be made only to members of the Cherokee nation at an appraised price to be fixed by an official to be designated by the secretary of the interior.

Heart Disease

is caused by sand-like uric acid crystals from your blood lodging on the edges of your heart-valves so that they cannot open and close properly. Your heart-action becomes irregular, because part of your blood leaks back—acting in the same way as water in the leaky valve of a pump—or these crystals may be deposited in the walls of the heart. The heart is slow to give the disease-signal of pain. So, if you feel the least unpleasant sensation in or about your heart, beware of heart disease.

There is only one way to clear your system of uric acid and be safe from its death-dealing effects. You must give your blood something that will dissolve and throw out the uric acid crystals, wherever they may be. LIFE PLANT has this power. LIFE PLANT is Nature's own remedy for uric acid diseases. And because it is Nature's own remedy, it is as safe as it is sure. LIFE PLANT gently washes away the uric acid sand which irritates and interferes with your heart, or any other organ or part of your body. Read what the Hon. D. J. Myers, of Circleville, O., writes:

"In regard to your LIFE PLANT I heartily endorse it as the best medicine on the market. I invite any sufferer to write me for further information at Circleville, Ohio."

No matter what ailment you may be suffering from, write your symptoms fully to L. J. Mizer, M. D., President of the Life Plant Co., Canton, O., and he will send you his personal advice, free. Our very valuable book—GOOD HEALTH—mailed free to anyone on request.

The White Heart of the Wheat

Words of Praise From a Columbus Lady, Who Gained 37 Pounds.

Mrs. A. Smith, 17 E. Spring St., Columbus, Ohio, writes: "That she was confined to the hospital for six weeks and in that time her system was all run down, headache, backache, nervousness, stomach trouble, and all out-of-order, consulted several doctors in Columbus, who claimed that I had an abscess on the bowels and that an operation was necessary, but hearing of Dr. Jackson's Digestive and Liver Powders thought I would try one more remedy before having an operation, and am very glad to say that after taking Dr. Jackson's Digestive and Liver Powders and Liver and Bowel Tonic, that no operation was necessary, that I am a well woman today, and able to do my own work. My weight today is 129 pounds, just a gain of 37 pounds since I commenced to take Dr. Jackson's Remedies."

Mrs. Smith's whole trouble came from indigestion, that is the reason why we are so successful in curing so many different diseases because we start at the root of the trouble.

DR. JACKSON'S DIGESTIVE AND LIVER POWDERS are guaranteed to cure indigestion and all attending ills, such as rheumatism, catarrh, neuralgia, headache, gastritis, bowel and liver trouble and heartburn. Why our remedies cure are that they contain every ingredient needed for the weak digestive organs in proper proportions and being in powder form they dissolve as soon as they reach the stomach and give immediate relief.

On sale by all druggists or sent direct. Dr. Jackson's picture on every package. Price, 50c and \$1.00.

WOMAN APPEALS TO THE COURTS

TO PREVENT A \$75,000,000 MERGER OF CLEVELAND GAS COMPANIES.

Harry Smith's Successor at Lancaster—Mine Company Alleges Discrimination.

Cleveland, O., Feb. 12.—A suit to enjoin the merger of the People's Gas Light Company and the Cleveland Gas Light and Coke company into the Columbia corporation was begun by Margaret K. Smith, a stockholder of the People's Gas Light company, and may block the big \$75,000,000 consolidation. Her petition charges that the directors of the People's company and the Cleveland Gas Light and Coke company are preparing to sell out the Columbia corporation for the purpose of forming a combination for the control of the gas business in Cleveland. The directors of both the People's and the Cleveland Gas Light and Coke company are receiving bonuses in the form of stocks and bonds, she alleges, and are also receiving fraudulent compensation that the other stockholders are not receiving. She further alleges that the Columbia corporation has taken over the Union Gas company of Cincinnati and that its purpose is the organization of a gigantic trust to control the gas business of Ohio. This, she alleges, is in violation of the Valentine anti-trust law of the state.

Military Strength of State.
 Cleveland, O., Feb. 12.—With a view to ascertaining how many experienced soldiers the United Spanish War Veterans of Cleveland can offer to President Roosevelt in case of war with Japan or any other power, Clarence Patton of Cincinnati, department inspector of Ohio, has been in Cleveland three days inspecting the local camps. "There are 55 camps of our organization in Ohio," said Lieutenant Patton, "and each one of them is counted good for a company of 100 seasoned men, whenever needed. We can turn out five regiments of veterans to represent Ohio at three days' notice."

Discrimination Alleged.
 Washington, Feb. 12.—Chairman Knapp and Commissioner Harlan of the interstate commerce commission heard the complaint against the Baltimore & Ohio railroad made by the Peabody Coal company, which operates a coal mine near McCunesville, Ohio. The company alleges that because of the failure of the railroad to supply cars, the company has been since August, 1904, prevented from working its mines to its capacity, while other mines officered by persons in the employ of the railroad or connected with it have received all the cars required.

Luck Against Him.
 Cincinnati, O., Feb. 12.—With his wife as his opponent Patrolman Louis S. Rouse bet a life of shattered hopes on a game of dominoes. This is the solution offered by the coroner for the mysterious suicide of the popular patrolman. Rouse has been worrying over a small debt, and the officials hold that he determined to test his fate at a game with his wife. If he lost he would kill himself. If luck turned he would take it as an augury of better times to come. But luck was against him, and he shot himself.

She Holds the Record.
 Cleveland, O., Feb. 12.—Mrs. Patrick J. Daly of this city holds the record for child-bearing. She has given birth to five children within the space of one year and five days. One year and five days ago she gave birth to triplets, and has just given birth to twins. She is 33 years old. Her husband, a carpenter, is 40.

Urged to Boycott Thaw Tales.
 Marion, O., Feb. 12.—Father Joseph N. Denning of St. Mary's Catholic church, in announcing the Lenten rules, requested members of his congregation to refrain from reading newspaper stories of the Thaw murder trial, besides denying themselves all Sunday papers.

Trade Fell Off.
 Toledo, O., Feb. 12.—Craze Brothers, one of the oldest wholesale cloverseed houses in the city, closed its doors. It is said expenses were large and the trade had fallen off considerably. The amount of money involved can not be learned.

Fatal Fray.
 Cleveland, O., Feb. 12.—A fatal shooting affray, directly attributable to the fight between the Nottingham wets and dries, occurred in Euclid avenue. William Basnow, who was the main witness against John Lenartie, recently convicted of selling liquor illegally at his store, shot Frank Janoch through the body, and doctors say death will result. Basnow's life had been threatened because of his testimony against Lenartie, and the dries claim he shot Janoch in self-defense.

snerrit of Logan county to compel him to admit Walter Reynolds, the seven-year old Bellefontaine boy who is deaf, dumb, blind, and has been declared an imbecile.

Union Miners Aroused.

Pomeroy, O., Feb. 12.—The strike inaugurated here a month ago, involving 1,200 coal miners, is beginning to assume a serious condition. Local strike-breakers have been put into the Charter Oak mine, the largest in the county, and the union miners are considerably wrought up over this action. State labor union officials from Columbus are on the ground attempting to prevent trouble. As yet no violence has been offered on either side, but feeling is running high.

Resigned Position.

Toledo, O., Feb. 12.—Henry L. Goeman, president of the National Grain Dealers' association, resigned his position. Charles England of Baltimore will take his place. No reason has been assigned for the resignation.

Organization of Celestials.

Columbus, O., Feb. 12.—The Chinese Empire Reform association was incorporated primarily for the purpose of "the propagation of concrete ideas that the Chinese empire may fully share in the progress and enlighten-

ment of the time and may have accorded to it the standing which it is by history and inherent possibility entitled." The organization will prepare to systematically study the English language and promote the mutual welfare of its members.

Three Trustees to Be Named.

Columbus, O., Feb. 12.—General Maxfield of Xenia, former consul general to Santo Domingo and a member of the law faculty of Wilberforce university, discussed with Governor Harris affairs relating to the institution. The death of Rev. James Poindexter makes the third vacancy on the board of trustees, none of which has been filled. Governor Harris has experienced some difficulty in finding men whom he regards as eminently fitted to fill these positions.

Grocer Succeeds Smith.

Lancaster, O., Feb. 12.—Harry Smith, charged with embezzling over \$12,000 from the Hocking Valley National bank of this city, also city treasurer, sent in his resignation to the city council and it was unanimously accepted. State Examiner McKinzie found a shortage in the city accounts of \$192.73 during his examination of the books. Mayor Pursell appointed Joshua Clark, a grocer, to succeed Mr. Smith as city treasurer.

Car Telescoped; Several Injured.

Chardon, O., Feb. 12.—A car on the Cleveland & Eastern out of Chardon was telescoped by the car from Cleveland at Scotland, three miles from here. Both cars were burned to the ground. Edward VanGordon, a machinist, was fatally injured. Homer Bathers, a blacksmith, was internally injured. Jack Dally, a foreman, received a large cut through his scalp. Others were seriously injured. Both crews escaped.

Illness of Judge West.

Bellefontaine, O., Feb. 12.—Judge William H. West, the "blind man eloquent," has just celebrated his eighty-second birthday. He is in ill health and has not visited his office since the last election. The judge is the only surviving member of the Ohio delegation which supported Abraham Lincoln for president.
